

## Grade 2 Home Learning Grid - Term 3 Week 3

### Math

If someone in your house is cooking, see if you can help. Maybe you could weigh the ingredients or measure liquid in measuring jugs.  
Don't forget to do your Mathletics activities!

### Where We Are in Place and Time

Can you tell where a structure is from just by looking at it? If you think you can, what are the clues?  
For example, "I can tell that a structure is from Ancient Egypt because they are usually made from sandstone."

### Reading

Read a book for 15 minutes every day. You can also read a book on Raz-Kids or practice making connections using Into the Book.

### Just for Fun Brain Teaser

Four children weigh different amounts. Figure out who weighs what.

1. Abe weighs more than Dan
2. Sue weighs less than Mary.
3. Sue weighs 20 pounds more than Dan.
4. Mary weighs more than Abe.

	80 pounds	90 pounds	100 pounds	110 pounds
Abe				
Dan				
Mary				
Sue
