

Grade 2 Home Learning Grid - Term 3 Week 2

Math

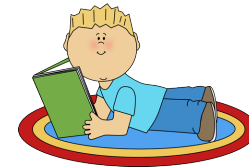

Remember 1 meter is 100 centimetres. Look around your house. Make a list of things you think are about 1 cm and others that are about 1 meter long.

Where We Are in Place and Time

Find pictures of famous structures from your home country. Bring them to school. Shhhhh, don't tell anyone where they are from, because we will try to guess next week.

Reading

Read a book for 15 minutes every day. You can also read a book on Raz-Kids or practice visualising using Into the Book.

Just for Fun Brain Teaser

How many times would you write the digit 9 if you were to write all the numbers from 1 to 100?
